## **From the Worshipful Master: Brother Wade Angel**

The Installation of Officers went very well. I want thank RH Adam Feldman for being the Installing Officer and doing an outstanding job.

Now, as the year begins, I am looking forward to serving the Lodge this year and working with all of you. There are committees that need to be set up this month to look into the projects we need to do. The elevator project will be starting very soon, (YAY!), and there will probably be some dust and mess that we will have to contend with during the process. I ask that we all be patient during this time. We need to look at this for what it is, "Growing pains". We are fortunate to be growing and a slight inconvenience should not deter us from moving forward with these improvements. When all is said and done, we will have an even better home here at J.F. Swartsel.

I want my year in the East to be focused on looking to the future and preparing for our Centennial celebration. We will soon be 100 years old and I want us to be prepared to take on the next 100.

## **From the Senior Warden: Brother Brian Reach**

My Brothers,

Please review the proposed budget for the 2023 Masonic year below. We will be reviewing it at one of our February Stated Communications, so please take the time to look it over so you can be prepared to ask any questions you may have.

Fraternally,

Brian Reach, SW

## York Rite Lesson

Brothers, Companions and Sir Knights,

When is the accepted date of the introduction of the doubleheaded Eagle into Masonry, and what is its significance?

In the year 1758, A. D., The Council of Emperors of the East and West, established in Paris, adopted a doubleheaded Eagle in reference to the double jurisdiction which it claimed, and which is represented in its title.

“If you really are thankful, what do you do? You share.” W. Clement Stone

---

By whom was the Order of the Eastern Star introduced? (American Adoptive Rite)

Rob Morris, A. D. 1850

“Abundance is a form of gratitude, a generosity, a modesty, a bow toward others—what we can give, what we can share, rather than what we can take. Terry Williams

---

What is the meaning of the name ENOCH?

The “Initiator”. By faith, he was translated by God that he might not see death, and had this testimony that “he pleased God.” (Heb. 11:5). Up to this time he was 365 years old, the number of days in a year.

“Some people arrive and make such a beautiful impact on your life, you can barely remember what life was like without them.”

If it ain't York, it ain't Rite

Zealously,

Most Excellent Companion

## Where in the world is our Brother Frank Penny?

**Day 3:** A delightful day in Cartagena, Columbia. A very busy port! We toured the Old City - took a boat ride across the harbor and toured an emerald museum. Emeralds are a major Columbia export. At the end of the tour, we were treated to a beautiful surprise. Two pure white peacocks! Panama Canal tomorrow

**Day 4:** Panama Canal, Monday, January 9. Fascinating day traveling through the canal. Entered about 7:00 AM and left at 5:00 PM. Very historical. One most wonder at the huge amount of time and effort to create this marvel - now about 110 years.

### **Day 9: Sat., Jan 14**

A tour day in Huatulco, Mexico

### **Day 10: Sunday, Jan 15**

A beautiful day at sea - calm seas - sunshine - delightful temperatures - a full day in Puerto Vallarta, Mexico tomorrow then on to Los Angeles

### **Day 14: Jan. 19, 2023 Leaving L.A.**

The pilot boat leaving our cruise ship and returning to the port of LA. Large boats use harbor pilots when going in and out of port - the pilot has expert knowledge of the port and are used by the ship captain to help maneuver in the confined harbor - the pilot leaves by small launch when clear of the harbor - Hawaii next after a three day sea voyage.

## Day 15-17: Days at Sea

**Jan 20** Here are a couple of pix of our ship - one inside looking into the 5 deck atrium and the other outside looking at one of the outside pools - note in the outside pool shot you see they giant screen where they show movies - we are told there are now 933 passengers on board

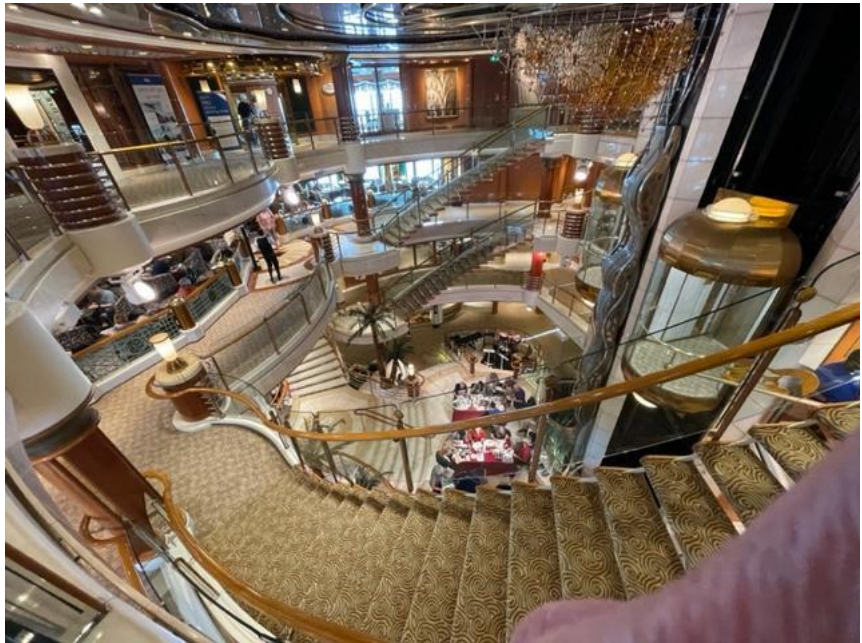

**Jan 21** Another quiet day at sea - a few statistics about this trip and why one can be excited about it - 111 days - cross equator twice - visit 31 countries - 6 continents - 21 UNESCO sites - 34,500 nautical miles (almost 40,000 land miles)

A dream come true.

**Jan 22** Today the seas were a bit tough - wind out of the southwest - Honolulu tomorrow - weather should be near 80 but a good chance of rain - have a Honolulu City Tour booked with a stop at Pearl Harbor where we will visit the sunken battleship, now a memorial to those lost on Dec 7, 1941 - a very hallowed place - as a boy of 8, I remember the day well - Grace and I visited the site years ago.

Warm Regards,

Brother Frank Penny

## Masonic Education – Euclid

Euclid is often referred to as "the father of geometry."

There is little known about the life of Euclid. He is believed to have been born sometime around the mid-4th century B.C.E. The only reference available on this comes from peers referencing him or accounts by those around him. This is considered odd by most historians since people who lived in time periods before, after and at the same time as Euclid have plenty of reference material written about them. This lack of information about Euclid has led some to speculate he was actually a group of mathematicians and the collection of theories provided by him, were actually provided by the group.

The only historical references to Euclid as an individual were not written until 4th and 5th centuries A.D. Even Archimedes referred to him as "ο στοιχειώτης" (the author of *Elements*).

Further confusion occurs due to the fact there was a second Euclid at the time known as Euclid of Megara who was a follower of Socrates and was present at Socrates' death. The Euclid of Geometry fame was known as Euclid of Alexandria.

Regardless of whether Euclid was an actual person or a group of mathematicians, *Elements* which was written and attributed to Euclid, is one of the most important books on mathematics, specifically Geometry. It was used for nearly 23 centuries to teach Geometry. It started falling out of favor in the 19th century when what is referred to as non-Euclidean geometry started to emerge.

For Freemasonry Geometry is a critical part of our symbolism. Euclid himself was written into the history of Freemasonry in the 14th Century Regius Poem which starts off talking about how Euclid trained the good families in Egypt in Geometry calling it masonry. In the poem, parents are worried their children will not be able to find work and they will not be able to support their children. They then ask scholars to teach their children. In the poem Euclid emerges as the greatest of the pupils and then teaches others in the ways of Geometry.

Euclid is believed to have passed away in the mid-3rd century B.C.E.

## TRESTLEBOARD ADVERTISERS

"Soft and safe be the earthly bed of our Brother; bright and glorious be his rising from it. Fragrant be the acacia spring which shall flourish there. May the earliest buds of spring unfold their beauties over his resting place, and, in the bright morning of the world's resurrection, may his soul spring into newness of life and expand into immortal beauty in realms beyond the skies. Until then, dear Brother, Farewell!"
